Custom Services To Fit Your Needs

www.kchomecare.com

What Sets Us Apart

- Our clients come first—all decisions and services are determined by what is best for the health and well-being of our client
- We are locally owned and nationally recognized
- Serving families since 1989
- Our employees are insured and bonded
- All employees are supervised by a nurse or care manager
- A proven track record of managing complex medical and lifestyle cases (complicated medical diagnoses, multiple homes, staffs, out of town family)
- We specialize in Alzheimer's disease and dementia care
- A team of trusted and experienced professional care managers and caregivers
- Whether our client needs help for a day, a few months, or a few years we create a customized care plan to meet his or her needs
- We negotiate fees to save our clients time and money, and never accept referral fees from service providers

Home Care

At **Kansas City Home Care**, we are committed to helping our clients live independently - with dignity, safety and comfort – while always keeping their medical, financial, emotional and social needs in mind. When your loved one needs help with the tasks of his or her daily life, from medication reminders to basic household chores, you can count on the dedicated staff of Kansas City Home Care to provide quality care services. We have the experience to offer care in a variety of settings including homes, hospitals, nursing homes and assisted living facilities. Our range of services can be customized to meet the needs of your family, and include:

- Bathing, dressing and other personal care assistance
- Light housekeeping and laundry
- Meal preparation/assistance with eating
- Running errands (prescription pick-up, groceries, etc.)
- Organizing and reading mail
- Accompanying to appointments and social outings
- Reminder services (medications, dates, routines, etc.)
- Ambulation and exercise assistance
- Nurse case management and coordinated physician services when needed
- Working with long-term care insurance providers for reimbursement.
- At Kansas City Home Care, we specialize in the care of seniors suffering from Alzheimer's disease and dementia.

Care Management

At Kansas City Home Care, our experienced care managers help older adults and persons with disabilities attain their maximum functional potential. We understand the challenges that families face when caring for a loved one with a debilitating condition or chronic disease. Our staff provides emotional support, expert advice and resources for caregivers of an adult family member or senior suffering from Alzheimer's or Parkinson's disease, or dementia. Our quality care management services can provide any or all of the following:

- A complete medical, social and environmental assessment
- A comprehensive care plan based on the completed assessment
- Ongoing support and communication to family and other responsible parties
- Coordinating medical appointments including physical, occupational and speech therapy
- Regular visits and advocacy when family members are not available or live outside the area
- Ambulation and exercise assistance
- Nurse case management and coordinated physician services when needed
- Working with long-term care insurance providers for reimbursement.
- At Kansas City Home Care, we specialize in the care of seniors suffering from Alzheimer's disease and dementia.

Transitional Care

Accidents at work or home, sudden medical, physical or mental changes – all of these are life-altering events when extra help and support can be critical. At Kansas City Home Care, our expert team of transitional care specialists can help you and your family through this difficult time. We can quickly conduct a thorough assessment of your needs and we will offer solutions for any or all of the following:

Relocation

- Recommending an appropriate living setting
- Managing the move to another location

Travel

- Arranging travel—short-term, seasonal or permanent
- Providing travel companions
- Ensuring continuity of care

Real Estate

- Arranging for home modifications (grab bars, ramps, etc.)
- Managing interior and exterior maintenance
- Preparing the property for sale

Personal Property

- Searching for wills, insurance policies, stock certificates and other financial statements
- Returning rented medical equipment and electronics
- Coordinating donations to charities
- Establishing order in the home and removing unwanted items
- Contacting auctioneers, estate sale companies and appraisers
- Advertising and selling vehicles
